

## FACTORY AUTHORIZED BOARD REPAIR

Board repair is an integral part of Ajax Tocco's commitment to complete customer satisfaction, and has over 8,000 square feet of floor space in three locations, 7 specially trained board repair technicians, and has invested over \$1,000,000 in test equipment to simulate actual operating conditions.

Give your boards the MILLION dollar treatment!

### Advantages

- Over 100 custom-built test simulators designed by ATM's world-class R&D department
- Our exclusive use of test simulators provides a controlled environment for precise testing
- Open loop endurance testing - beneficial when looking for intermittent or heat related problems
- Complete documentation of all repair work done (available upon request)
- All boards cleaned, repaired, tested, and calibrated to original factory specifications (as needed)
- Repair & testing offered on all boards dating back to the 1930s (including MG sets and HTLs)
- Over 150 years of combined board repair experience
- Full support from design, application, and R&D engineers is available when needed
- Only high-quality, factory recommended components, (as originally specified), are ever used
- Quick turnaround, repairs available 24/7/365 (1 day emergency turnaround available)
- Warranty on all repairs

Remember, we are the only OEM for parts and service for Ajax Magnethermic, TOCCO, AIH, IEH, Pachydyne, and of course, Ajax Tocco Magnethermic.
